

THE MOST POPULAR CAR IN THE WORLD. THE NEW COROLLA.

It's hard to believe that since its launch in 1966, the Corolla has sold over 16,000,000 models. Making it the most popular car in the world.

But thanks largely to the world's biggest automotive research and development investment of \$2 billion a year, and over 350 completely new parts, the new Corolla will be even more popular.

A robust suspension system has made the Corolla more comfortable and more spacious.

And tilt adjustable power steering, an ABS radio cassette, and catalytic converter are all standard features on the new Corolla.

Not to mention the 3 year or 60,000 mile manufacturer's warranty, that every Corolla comes with.

But to mention the 3 year or 60,000 mile manufacturer's warranty, that every Corolla comes with.

WOKING LIONS AUGUST BANK HOLIDAY MONDAY GALA

Welcome to the Working Lions Club August Bank Holiday Gala. We do hope you enjoy this year's show with its Wild West theme.

Woking Lions Club was established 18 years ago and with 41,000 other clubs is part of the Lions Club International, the world's largest service organisation. This year internationally the Lions are concentrating on their campaign to raise 90 million pounds for the Slight First Project to eradicate globally preventable and reversible blindness.

Locally the Lions Club concentrates on raising money to support the local community through the provision of equipment and other help for deserving people and causes. This year one of our main projects will be providing assistance to the local charity, Link Leisure, which helps severely disabled children and young adults to live as normal a life as possible.

Our Club with 23 members is always looking for people interested in taking part in our activities. If you are give me a ring on (0483) 763657. I would be delighted to tell you about us.

Finally I would like to thank all those who have contributed in many different ways to the Gala and thank you all for your support.

Have a good time.

Geoff Buxton
President.
