

## INTRODUCTION

In presenting this new Directory of Woking, Byfleet and District, the publishers would like to take this opportunity of thanking the many people and organisations whose help in compiling the book was invaluable. We would like to make special mention of the help afforded by members of the Woking Council and thank them for the use of maps and other data, without which we would not have been able to make the many alterations and additions needed to bring the book up to date. Our thanks also to the members of the Woking Chamber of Commerce for their help, suggestions and advice. A number of these suggestions have been incorporated in this new edition, two of which are the inclusion of a Trade Directory and the listing alphabetically of the Street Section. We hope this latter will satisfy the great number of people who felt the previous lay-out (by parishes) made the finding of some roads difficult.

The compiling, printing and publishing of such a Directory as this is no small task, and we hope that any business which are not included in our Trade Section will notify us so that particulars of their Trade, Business or Profession can be included in the next edition.

Since the previous Woking Directory there have been nearly 200 new roads built in the Urban District; the majority of these are included in this Directory, and by keeping our files up-to-date on new developments, we hope the next edition will be even more comprehensive than this present one.

Finally, a word of thanks to the many advertisers without whose support publication would not have been possible.
